Work experience

Impress, Senior Product designer

I own the user experience and look&feel of two projects: communication to attract new customers and personal area. Through market research, experiments, iterations, and cross-team collaboration I help to achieve business goals and address user needs.

Fulltime (Barcelona, Spain)
2021 — present

Indeepa, Product designer

I owned the user experience and interface of the marketplace fulfilment provider service and its landing page. I work collaboratively with management and engineering teams.

Remotely (Moscow, Russia)
2020 — 2021

Indeed, UX/UI Designer

I contributed to the designs and user experience of products for employers (Company Page and Employer Tools), I was responsible for their UX and worked collaboratively with research, visual design, and design technologist teams.

Tokyo, Japan
2018 — 2019

Yandex, Product Designer

I owned the user experience and designs of Yandex.Transport (Russian biggest public transport app) for iOS and Android. I was responsible for problem solving through prototyping and UX testing.

Moscow, Russia
2016 — 2018

Pulter, Web Designer

I contributed to visual designs of two projects (a video hosting and an ad tool) and was responsible for creating marketing materials and presentations.

St. Petersburg, Russia
2014 — 2016
